## ON-SITE SOLUTIONS

## ON-SITE

Hydroline`s on-site consignment stock keeps Hydraulic Cylinders always available quickly and reliably. Storage handling and administration can be done on Your behalf and therefore You don`t have to invest unnecessary resources in warehouses.

On-site consignment stock can be located at Your own or at Hydroline facilities. All the storage handling requirements and responsibilities can be arranged according to Your need.

**On-site Service can also include grouping cylinder sets, supplying pre-tested sub-assemblies, sourcing assembly parts and packaging solutions.**

## OPTIONS

**CYLINDER SETS** A set contains all cylinders for one fully assembled unit.

**SUB-ASSEMBLIES** The delivery of cylinder involved assemblies

**SOURCING** An outsourced, efficient sourcing process.

**PACKAGING** The solutions ranging from individual packages to circulating branded packages

## FOR YOUR REQUIREMENTS

### 1. Stock needs

### 2. The choice of options

### 3. Tailored on-site solution
