

Manufacturing tomorrow's intelligent hydraulic systems by collaborating and empowering industries today.

TRUSTED GLOBAL PARTNER

We have global presence always available to our customers, regardless of their geographical location. Our solutions for a better global service are international cooperation and operational expansion.

Our vision – to become the trusted resource and preferred partner in intelligent hydraulics solutions worldwide.

Our mission – to be a dynamic problem-solver able to generate true added value for all of our partners' products and services.

SFS-EN ISO 9001:2008 quality certificate

SFS-EN ISO 14001:2004 environmental certificate

OHSAS 18001:2007 occupational health and occupational safety certificate

ISO 3834-2:2005 quality requirements for fusion welding of metallic materials
